VOLUME XLIX. NUMBER 11.

If Georgia were "wet" what a text its lynchings and lawlessness under form of law would furnish our prohibition neighbors!

I SYMPATHIZE—in a manner—with the calamity-howling Republican papers. It is indeed unfortunate for them that the good fortune of the country at large should be their misfortune. But the hole they are in is of their own digging.

SUIT was instituted before Federal Judge Dyer last Monday, asking that the Missouri Pacific and Iron Mountain Railroads be placed in the hands of a receiver. The matter was taken up next day and President Bush was appointed Receiver. Good!

LEO FRANK, serving a life term for alleged murder of Mary Phagan, was taken from the State Prison Farm at Milledgeville, Georgia, by a small mob and lynched last Monday night. To an outsider it looks as if there must have been connivance between his custodians and the lynchers. Anyway, the occurrence is a disgrace to a state whose extreme "dryness" is its other distinguishing feature.

KENNETT went dry again by 69 votes last Monday. It is said that Congressman Meeker of St. Louis, who was imported there by the wets to make speeches for them one week before the election, did the work that made the town dry.—Illmo Jimplicite.

We have no doubt of it. It has been told us that Meeker doubled the local option majority in St. Francois county. A little gray matter is badly needed at "wet" headquarters.

THE following from last week's Fredericktown Tribune, a Republican paper, is in marked contrast with the incessant calamity howling of the Potosi Journal: "Fredericktown is well on her way to another boom. In fact the boom is right here. Every available place for a family to live is taken and the men working different shifts can be seen on the streets of our city at any time of day and looks like the time when Fredericktown was at her best before."

AFTER Admiral Dewey had witnessed the trial of the submarine—then a new invention—he said, "If Spain had had one of these things in Manila Bay when we attacked her fleet, the result might have been disastrous to us. With two of them Galveston would be secure against the biggest battleships afloat." Then why build Dreadnaughts in preference to submarines? Are the desire of the Navy Club and the Armour Plate Trust's prosperity of paramount importance?

I REMOVED to learn of the serious illness of Judge John C. Brown of the State Supreme Court, and hope that his health may soon be restored. He has been in poor health for the last year, and has gone to several health resorts in search of relief. Three months ago his condition became worse, and he went to Colorado with his wife and daughter. He appeared to be improving, but, following a relapse last week, he was brought to St. Louis and placed under the treatment of a specialist. Judge Brown was elected to the Supreme Court in 1910, and his term will not expire by law until 1920. He is 55 years old, and his home is in Fredericktown.

JACKSON Cash-Book: "We were forcibly reminded this week of the benefits the people are receiving under a Democratic administration as compared with the Republican administrations under which they struggled so long against the numerous trusts and combinations which made them pay monopoly prices on so many of the necessities of life. We had Charley Query, the Standard Oil agent here, put fifty gallons of coal oil in our tank, for which we paid him \$2.85. When we were basking in the sunlight of those beautiful old Republican days the price of coal oil was very much higher than that. And gasoline for our engine here at the office, as well as coal oil for our stove at home, was much higher in price than now—about 19 cents a gallon. Since the Democratic administration has gone after the oil trust we are getting coal oil at about 5 cents a gallon and gasoline at about 9 cents. The Republican party fostered and built up the trusts for fifty years. During that time the people were made to pay monopoly prices for all trust-controlled products. Under Democratic rule at Washington the anti-trust laws are being enforced, and the people are feeling the good effects of it."

THE death of Hon. John E. Organ, editor of the Salem Monitor, Tuesday, August 10, 1915, takes from Southeast Missouri another of her pioneer newspaper men. Dying in the fullness of years, he leaves a record without blemish—one the memory of which his posterity may cherish with pride, and we of the craft with virtuous emulation. Following is a very brief sketch of his career: "John Elbert Organ, son of James and Amanda Parry Organ, was born April 7, 1838, in Champaign county, Ohio. He moved to White county, Indiana, in 1848, and to Phelps county, Missouri, in May, 1856. In August, 1859, was

elected surveyor of Phelps county. Was a delegate to the Democratic State Convention, in 1860. On his 23d birthday, (April 6, 1861,) he and his four brothers, Wm. W., C. P., Alexander D. and Irenius B. Organ, enlisted in the Confederate army. Three of these—Wm., Alexander and Irenius—died in the service. The first two at Little Rock, Arkansas, and the last at the old home near Round Pond. C. P. Organ went to Wyoming soon after the war and died there about 17 years ago. One other brother, Frank, died in infancy in Indiana. While on scout duty in the early part of 1869 Jno. E. was captured near West Plains, Mo., and taken to the St. Louis and Alton Federal prisons, where he remained about six months, when he was exchanged at Vicksburg, Miss., joined his old command, Co. E, 8th Mo. Inf., and remained in active service until the surrender, June 7th, 1865, at Shreveport, La. After the surrender he came home, and August 20th, 1867, was married to Martha L. Burkitt. He taught school, farmed and did surveying until April 7, 1873, when he bought the Salem Monitor and edited same from that date until his death. Mr. Organ was elected representative from this county seven times in the last forty years: 1874, '78, '84, '96, '98, 1900 and 1906. He was Presidential Elector in 1880; and has attended, with very few exceptions, every Democratic County, District and State Convention since 1860."

Democratic Record.

JEFFERSON CITY, MO., Aug. 9. The certificate just made by State Auditor Gordon to Superintendent of Schools H. A. Gass apportions the magnificent sum of \$1,615,470.80 to the public schools out of the State revenues. The Democratic State administration in addition to the above named sum has appropriated from the State revenues for town, village and rural high schools, teachers' training courses in the public schools, and for supervision of district schools, the further sum of \$395,200.03. From the same source this year, the State administration has appropriated the further sum of \$250,000.00 for the rebuilding of the normal school, which was burned early last spring, at Warrensburg. This unusually large sum is \$328,680.38 more than was ever before given to the public schools at any one time. In the foregoing, no account is taken of the many hundreds of thousands being given for the maintenance of the State University, Normal Schools, Lincoln Institute, and schools for the deaf, dumb, blind and the morally and mentally defective.

The record made by the present Democratic administration in behalf of the public schools surpasses all previous liberality, notwithstanding the representations being made by a hostile and mendacious partisan press now working overtime in a vicious effort to discredit the Democratic Party of this State. Missouri Democrats knowing the truth will be proud to proclaim it.

Annapolis News.

Everything lovely this morning. Have had lots of rain the past week, but the sun is bright to-day, and but little more rain this month, so says the moon sign.

Sarah J. Campbell died of a congestive chill at the home of her daughter, Dicie Kitchell, in Annapolis, August 14, 1915, at 3:30 o'clock P. M. (Interment was made in the Annapolis cemetery the following day, services being conducted by Rev. Green Brooks of this place.)

Squire Kitchell made a trip to Daffron Branch last Tuesday in the interest of Reese & Thurman to get a bill of sale of the property belonging to H. N. Taylor, and in possession of his wife, Saline. He had mortgaged everything he had except one cultivator, mowing machine, rake and growing crops, and J. A. Middleton has a third interest in the crops. There is positively no train in this country from the windows of which can be seen more magnificent scenery than from The Scenic Limited, the new, all-steel, through train over the Missouri Pacific, Denver & Rio Grande and Western Pacific between St. Louis, Kansas City, Pueblo and San Francisco. This train gets its name from the marvellously picturesque route over which it travels, and its schedule has been so arranged as to provide daylight rides through the chief scenic centers—along the Missouri, through the Royal Gorge, across the Rockies, over Great Salt Lake and the famous Feather River Canon—a wealth of scenic grandeur that is absolutely unequalled. The Missouri Pacific has just issued a superbly illustrated booklet on The Scenic Limited. Get a copy to-day at the Missouri Pacific Ticket Office.—Adv.
